Encouraging.

New York, Nov. 11.—Dun's Weekly Review of Trade tomorrow will say:

All measures of trade indicated the customary loss due to holiday interruption, but subsequently much of the deficit was regained, numerous evidences of increasing confidence being seen in the disposition to place orders for distant shipments. Increased consumption of pig iron is also significant and in other leading branches of manufacture there is a steadily diminishing percentage of idle machinery. Woolen mills are busy, despite the fact that it is between seasons and the raw wool market is very strong. Foreign commerce at this port for the last week shows a decrease of \$562,995 in exports compared with last year's figures, while imports increased \$4,384,891. Receipts of coffee were a prominent factor in this graim. Railway earnings in October exceeded last years by 3.8 per cent. Hides are on a firmer basis, with stocks limited and offerings small. Foreign dry, hides have sold at a further fractional advance.

Failures this week numbered 213 in the United States against 283 jast year, and 17 in Canada compared with 27 a year ago.

the beginning, that the property is stined to rank with the great mines the Park City district. THE NEW PECK MILL.

What Its Builders Will Accomplish

at the Horn Silver. new. Peck concentrating mill te Horn Silver company's property at risco is rapidly nearing completion ad Manager W. H. Peck expects to of tailings per day next month, plant, which has required more 500,000 feet of lumber in its contruction, is now all under cover and nachinery is being placed. Work on the pipe line from Newhouse is under vay and it will be but a very snort fine till the mechanics are down to be finishing touches about the works. onsidering the fact that many delays ere experienced in securing the deliv-y of building material. Manager eck is well pleased with the progress at is being made. Speaking of the sults anticipated, Mr. Peck said: "There is not the slightest loubt out what the mill will do, Before tking the building of this plan de exhaustive tests on the nd crude ore at our mill in Mon-Several carloads of materia we knew to a certainty just e could do. There are approxi-250,000 tons in the Horn Silver dump. This material carries out 18 per cent zinc and \$1 in gold r ton. As the lead carries the sil-r and gold, it will be possible to ake a very fine silver-lead-gold con-ntrate, and a zinc product that will e better than 60 per cent in that crushing a very perfect separa n of the lead and silver from the icies do not carry any of the other rude ore to treat because it will be necessary to regrind them preis to making the separation, while he crude ore will have to go through with we shall handle nothing bu but the intention is to lat: the handling of crude ore and stailings in reserve for the en it may be impracticable to s when it may be impracticable to us a maximum tonnage per day rude ore. The mill will easily care of 300 tons per day, and it ossible that the plant will be en-

FROM NEVADA'S GOLD ZONE. Alta Miner Infatuated With Country

and Will Winter There. J. A. Jacobson, who recently gave up the superintendency of the South columbus company's property, at Alseven weeks' trip Thursday night. After a few days at home he turn and put in the winter. After fully sizing up conditions at Goldfield, which he describes as being a marvelously rich camp, he decided to go south from there. He first tackled To-Cop, twenty miles south of Goldfield and then went on to Bullfrog, sixty miles farther. He reports having bee fortunate enough to get hold of what nbt that during the winter he will

make some good money.

"People do business over in that

assay \$12 per ton. A man who was a perfect stranger came to me and offered \$2,500 for a third interest in the claims. 'Why,' said I, 'you don't really know that I own any claims.' 'Well,' e replied, 'if you are willing to ake the money I stand ready to take be chance on your owning the ground. That is the way everybody does busiess over there, and, to a man who as had experience in this town trying interest capital in mining ventures.

It assure you.

If assure you.

If have been traveling over a most highly mineralized region, and hundreds of miners and prospectors are now scouring the country. Some good strikes have been made at To-Cop, Bullfrog and other places, and I am sure that many more will be made during the winter months, for the men, or a great many of them at least, know what they are about and are in

WILL RUSH DEVELOPMENT.

Federal Company Wants to Get Its Ore Treated at Majestic Smelter. With all arrangements practically completed for the opening of the cam-paign of development at the mines, J. E. Meyer of the Federal Gold & Copper Mining company, will leave for a business trip to Illinois and Wisconsin tonight. Work at the property, which is counted as one of the best in the Beaver Lake district. Beaver county, is to be vigorously pushed from the turnloose, and that "sinews of war."

have its smelter in operation again, and the Federal company is determined to have its mine in shape for produc-tion as soon as possible on that acon as possible on that account. While the Majestic company will have plenty of ore of its own to handle, there is little or no doubt that Ontario the management will, to some extent at least, help out its neighbors by buying ores from their mines and thus save them the long and rather exensive haul to this valley. shipping ore from the Federal prop-

located some claims and from some of them had secured rock that would assay \$12 per ton. A man who was a perfect stranger came to me and of-

Ore and Bullion. Ore and bullion settlements in this city yesterday, as reported by McCornick & Second pfd. Co., amounted to \$101,200, as follows: Silver, lead gold and copper ores, \$52,700; base bullion, \$37,000; gold bars, \$11,500.

Mining Notes.

The Pioneer sampler yesterday reported three cars of ore from Tinuc and one from American Fork.

Anthony H. Godbe has returned from a five months' eastern trip, where he has been giving his attention to mining matters. He says there has been nothing accomplished by him that would make news at this time, though his efforts have been far from fruitless.

C. O. Ellingwood, secretary of the Western Exploration company, left for San Francisco last night to be gone a week or ten days. He has gone down on Balaklala business.

D. P. Rohlfing, the well known mining engineer, leaves for Beaver county on professional business tonight. He will be gone several days.

John G. Rhodin, manager of the American Flag company's property at Park
City, came down from camp Thursday to
attend to a little business on this end of
the line. He will return home this mornSt. L. & S. F.

The Ontario drain tunnel, driving of which toward Daly-West territory was commenced a little over twenty days ago, has been advanced a distance of 125 Second pfd St. L. S. W. Preferred ... So. Pacific ... So. Railway feet,

be vigorously pushed from the turnloose, and that "sinews of war," with
which the company is already well provided, will be added to during the pilgrimage of Mr. Meyer, there is no reason at all to doubt.

A few months hence, it is confidently
expected, the Majestic company will
have its smelter in operation again.

Mesterday morning.

Dr. Henry W. Moore of Santa Barbara,
Cal. who has been spending a few days
in the surrounding mining camps, left for
home again yesterday. The doctor is interested in several Utah propositions and
was anxious to satisfy himself as to their
well pleased with what he had seen.

Adams Exp
Amn. Exp Morris Sommer, secretary of the Steele Consolidated company, will go out to the Park today to look over the company's property. Reports have been coming from camp of a rather mysterious nature, and Judge Sommer wants to see what has been occasioning them. Time permitting, he will also pay a visit to the St. Louis-Ontario.

Frank Schuyler, chief millwright at the plant of the Continental company in Little Cottonwood, is down from camp for a day or two's visit at home. He says work is being crowded on the plant and tramway of the company as rapidly as possible.

or snappage of the few miles of country to the Majestic plant at Milford will amount to but a small sum per ton, and the \$5 or more freight from there to the smelters here will appear as just \$5 unich more profit to the Federal company.

Event the way in which matters are

M. H. Pape and Peter Anderson, who have been working on the Continental company's mill, have left to go to Bington and the Story of the Mington and the Story of the Sington and Henry Hales, who have taken the contract of hauling the ores of the Bington and the Story of the Bington and the Bington and the Story of the Bington and the Bington the some good money.

People do business over in that natury," said Mr. Jacobson. "To illiter what I mean I will give you are what I mean I will give you are what I mean I will give you are experience of my own. I had the Majestic company's plant during the ores of the Bing-Dis. Securities to leave here tomorrow morning.
